DETAILED ACTION

1. Applicant's amendment filed 4/15/05 has been entered and made of record.
2. Claims 2-7 and 9-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 2 and 9, the closest cited prior art does not teach or suggest a buffer memory for recording variable length coded data passing through the variable length coding by said variable length encoder; a shifter for shifting the variable length coded data by a predetermined number of bits, when the variable length coded data stored in said buffer memory exceeds the predetermined number of bits; a data output section for outputting the variable length coded data undergoing the bit shift by the predetermined number of bits by said shifter; and a processor for activating and controlling at least part of said nm-length converter, said variable length encoder, said buffer memory, said shifter and said data output section.

Dependent claims 3-7 and 10-15 are also allowed for the same reasons as above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duy M. Dang whose telephone number is 571-272-7389. The examiner can normally be reached on Monday to Friday from 5:30AM to 2:00PM.
